Dear Devotees,

We should give far more attention to the mother who created the whole world than the mother who gave birth to us. We are all children of the world. Therefore, the mother who cares for the whole world deserves water, electricity, flowers, offerings, oil for lighting and other expenses. By supporting such expenses even for one day, each and every one of you would enable the temple to function well. It would also add to the individual's wellbeing and spiritual happiness.

DETAILS OF POOJA EXPENSES

In addition, those who wish to contribute to the functions on Fridays and other auspicious days could contribute 350.00 Euro for the additional expenditure of decorations and garlands for the procession of the deity inside the temple. These create an inner awareness of the rituals and bring the devotee closer to the Goddess. It is also an inner awakening to the spirituality of the younger ones to follow the sanctified path of the parents.

If we fail to show the true cultural path, then the young people do not realize the rich tapestry of our Hindu culture, rituals, dharma and honesty. It is everyone's responsibility to safeguard our culture and religion.

Therefore, I would ask you all to take part in the above offering and receive the blessings.
